And today's financial tip:

What is meant by the term discretion in securities markets?

Discretion is the freedom an investor gives to a broker to use his judgment regarding the execution of an order, it lets the broker decide when to execute the trade and at what price. Discretion can be both limited and unlimited. An example of limited discretion, a broker is given a price range within which he can use his judgment in executing the order. An example of an unlimited discretion, a broker is not given an exact price or range to execute the order.
